Hello Ms. Eloisa,

Reluctantly, I am going to have to resign and return to Milwaukee at the end of this semester. I have some family issues that I need to take care of and being out here by myself is not working. One of these issues involves my son leaving the Air Force with a PTSD diagnosis.

I realize that this is not convenient or anything I had planned. I have enjoyed the staff and students here and just the opportunity overall.

I told Rebekah that I will leave two weeks of lesson plans for all three of my preps to keep the students on track. I am not telling them until the last day of the semester.

Kind regards,  
Gail
