COVID-19 School Guidance Checklist

February 22, 2021
2021 COVID-19 School Guidance Checklist

Name of Local Educational Agency or Equivalent: Point Arena Schools District
Number of schools: 2
Enrollment 383
Superintendent (or equivalent) Name: Warren Galletti
Address: 45 Lake Street, Point Arena CA 95468
Date of proposed reopening: April 19, 2021
County: Mendocino
Current Tier: Red
(please indicate Purple, Red, Orange or Yellow)
Type of LEA: K-12

Warren Galletti
Phone Number: (707)882-2803
Email: wgalletti@mcn.org

Grade Level (check all that apply)
☐ TK ☐ 2nd ☐ 5th ☐ 8th ☐ 11th
☐ K ☐ 3rd ☐ 6th ☐ 9th ☐ 12th
☐ 1st ☐ 4th ☐ 7th ☐ 10th

This form and any applicable attachments should be posted publicly on the website of the local educational agency (or equivalent) prior to reopening or if an LEA or equivalent has already opened for in-person instruction. For those in the Purple Tier and not yet open, materials must additionally be submitted to your local health officer (LHO) and the State School Safety Team prior to reopening, per the Guidance on Schools.

The email address for submission to the State School Safety for All Team for LEAs in Purple Tier is:
K12csp@cdph.ca.gov

LEAs or equivalent in Counties with a case rate >=25/100,000 individuals can submit materials but cannot re-open a school until the county is below 25 cases per 100,000 (adjusted rate).

For Local Educational Agencies (LEAs or equivalent) in ALL TIERS:
☐ I, Warren Galletti, post to the website of the local educational agency (or equivalent) the COVID Safety Plan, which consists of two elements: the COVID-19 Prevention Program (CPP), pursuant to CalOSHA requirements, and this CDPH COVID-19 Guidance Checklist and accompanying documents,
which satisfies requirements for the safe reopening of schools per CDPH Guidance on Schools. For those seeking to open while in the Purple Tier, these plans have also been submitted to the local health officer (LHO) and the State School Safety Team.

I confirm that reopening plan(s) address the following, consistent with guidance from the California Department of Public Health and the local health department:

- **Stable group structures (where applicable):** How students and staff will be kept in stable groups with fixed membership that stay together for all activities (e.g., instruction, lunch, recess) and minimize/avoid contact with other groups or individuals who are not part of the stable group.

Please provide specific information regarding:

- How many students and staff will be in each planned stable, group structure? (If planning more than one type of group, what is the minimum and maximum number of students and staff in the groups?)

  **See page 2 of CSP**

- If you have departmentalized classes, how will you organize staff and students in stable groups?

  **See page 2 of CSP**

- If you have electives, how will you prevent or minimize in-person contact for members of different stable groups?

  **See page 2 of CSP**

- **Entrance, Egress, and Movement Within the School:** How movement of students, staff, and parents will be managed to avoid close contact and/or mixing of cohorts.

- **Face Coverings and Other Essential Protective Gear:** How CDPH’s face covering requirements will be satisfied and enforced for staff and students.

- **Health Screenings for Students and Staff:** How students and staff will be screened for symptoms of COVID-19 and how ill students or staff will be separated from others and sent home immediately.

- **Healthy Hygiene Practices:** The availability of handwashing stations and hand sanitizer, and how their safe and appropriate use will be promoted and incorporated into routines for staff and students.
Identification and Tracing of Contacts: Actions that staff will take when there is a confirmed case. Confirm that the school(s) have designated staff persons to support contact tracing, such as creation and submission of lists of exposed students and staff to the local health department and notification of exposed persons. Each school must designate a person for the local health department to contact about COVID-19.

Physical Distancing: How space and routines will be arranged to allow for physical distancing of students and staff.

Please provide the planned maximum and minimum distance between students in classrooms.

Maximum 6 ___________ feet

Minimum 6 ___________ feet. If this is less than 6 feet, please explain why it is not possible to maintain a minimum of at least 6 feet.

Staff Training and Family Education: How staff will be trained and families will be educated on the application and enforcement of the plan.

Testing of Staff: How school officials will ensure that students and staff who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic staff testing cadence.

Staff asymptomatic testing cadence. Please note if testing cadence will differ by tier:

See pages 1, 6, and 7 of our CSP.

Testing of Students: How school officials will ensure that students who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic student testing cadence.

Planned student testing cadence. Please note if testing cadence will differ by tier:

See pages 1, 6, and 7 of our CSP.
Identification and Reporting of Cases: At all times, reporting of confirmed positive and suspected cases in students, staff and employees will be consistent with Reporting Requirements.

Communication Plans: How the superintendent will communicate with students, staff, and parents about cases and exposures at the school, consistent with privacy requirements such as FERPA and HIPAA.

Consultation: (For schools not previously open) Please confirm consultation with the following groups:

Labor Organization
Name of Organization(s) and Date(s) Consulted:
Name: CSEA, PAHSTA & AUTO
Date: 3/16/2021

Parent and Community Organizations
Name of Organization(s) and Date(s) Consulted:
Name: REOPENING COMMITTEE
Date: 3/23/2021

If no labor organization represents staff at the school, please describe the process for consultation with school staff:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

For Local Educational Agencies (LEAs or equivalent) in PURPLE:

☐ Date of Submission to Local Health Department: ________________.
Note: LEAs intending to re-open K-6 schools while in the Purple Tier are to submit the CSP to the LHD and the State Safe Schools for All Team concurrently.

Additional Resources:

Guidance on Schools
Safe Schools for All Hub

Note: This checklist was amended on January 29th to delete language regarding the need to submit this checklist to a County Office of Education. The CSP does not need to be submitted to the County Office of Education as part of the public health guidance, though the County Office of Education may request the CSP as part of other processes.
COVID-19 Prevention Program (CPP) for Point Arena Schools District
This CPP is designed to control exposures to the SARS-CoV-2 virus that may occur in our workplace.

Date: 3/9/2021

Authority and Responsibility

The Director of Maintenance & Operations (M&O) and Site Principals have overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all managers and supervisors are responsible for implementing and maintaining the CPP in their assigned work areas and for ensuring employees receive answers to questions about the program in a language they understand.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment. This includes all vaccinated employees.

Identification and Evaluation of COVID-19 Hazards

We will implement the following in our workplace:

- Evaluate employees’ potential workplace exposures to all persons at, or who may enter, our workplace.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the Appendix B: COVID-19 Inspections form as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.
- Conduct regular COVID-19 inspections along with other safety inspections on a monthly basis by M&O.

Employee participation

Employees and their authorized employees’ representatives are encouraged to participate in the identification and evaluation of COVID-19 hazards by: Communicating concerns to supervisor.

- Point Arena High School Administration – Marty Wilkes (707)882-2134 ext. 214
- Point Arena High School M & O – (707)882-2134 ext. 218
- Arena Union Elementary Administration – Scott Carson (707)882-2131 ext. 203
- Point Arena Schools District Human Resources – Dunnell Daleuski (707)882-2803
Any employee, community member, parent, guardian or student may call or email the COVID-19 Liaison to report any COVID-19 related issues, or through the California Safe Schools for All portal at: https://caschoolsopening.powerappsportals.us/comments-and-concerns/ or through the district anonymous COVID-19 Hazard Report Form at: https://docs.google.com/forms/d/1FAIpQLSf0eEgYaoS8Y09eXsPH_YbrYkXioehWh0NUeCfTBko9_rVZig/viewform?usp=sf_link

**Employee screening**

- We ask all employees to self-screen before they arrive to any school site or District Office and to follow all posted entry rules.

- Offer COVID-19 testing to staff and students through Binax per the testing cadences per the State of California for -12 schools.

**Correction of COVID-19 Hazards**

Unsafe or unhealthy work conditions, practices, or procedures will be documented on the Appendix B: COVID-19 Inspections form, and corrected in a timely manner based on the severity of the hazards, as follows:

M&O will correct identified hazards or prevent access by employees until the hazard(s) can be eliminated. Results shall be documented and communicated to the Superintendent.

**Control of COVID-19 Hazards**

**Physical Distancing**

Where possible, we ensure at least six feet of physical distancing at all times in our workplace by:

- Reducing the number of persons in an area at one time, including visitors.

- Visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel.

- Staggered arrival, departure, work, and break times.

- Reorienting workspaces to ensure a minimum of six feet distance between employees.

- Installation of plexiglass shields on workstations where physical distancing is not possible.

- Individuals will be kept as far apart as possible when there are situations where six feet of physical distancing cannot be achieved.
Face Coverings

We provide clean, undamaged face coverings and ensure they are properly worn by employees over the nose and mouth when indoors, and when outdoors and less than six feet away from another person, including non-employees, and where required by orders from the California Department of Public Health (CDPH) or local health department. Point Arena Schools District has purchased reusable face coverings for all employees. In addition, disposable face coverings for employees and guests. Face shields have also been purchased for employees who work within close proximity of students or others. Employees who are unable to wear a face covering are provided a face shield. Employees will be reminded and encouraged to launder reusable face coverings regularly.

- All Classrooms have a PPE (personal protective equipment) supply. The supply consists of disposable face masks for adults and/or teens, disposable face masks for smaller children, disinfecting wipes, hands sanitizer, and non-latex gloves.
- Additional supplies are available through M & O should a teacher/classroom require more.
- All employees are required to wear a face mask that covers their nose and mouth while on school district property. Staff who refuse to wear a face mask will not be permitted on campus. Face masks are available for all employees.
- All students who attend in-person classes are required to wear a face mask that covers their nose and mouth. Students with a medical exemption or who are incapable of wearing a mask will remain in their classroom with their teacher. Students will be issued a face mask if they come to school without one or if they arrive to a bus stop without one. Students who refuse to wear a mask will be assigned to full-time Distance Learning and not permitted to attend in-person instruction.
- All teachers, front offices and school buses will have an ample supply of face masks should any student, parent or staff need to request one

The following are exceptions to the use of face coverings in our workplace:

- While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
- Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Alternatives will be considered on a case-by-case basis.
- When an employee is alone in a room.
- Specific tasks that cannot feasibly be performed with a face covering, where employees will be kept at least six feet apart.
**Engineering controls**

We implement the following measures for situations where we cannot maintain at least six feet between individuals:

- Installation of plexiglass partitions. We have also reoriented workspaces to attain the appropriate spacing.

- We maximize, to the extent feasible, the quantity of outside air for our buildings with mechanical or natural ventilation systems by:
  - Increasing filtration efficiency to the highest level compatible with the existing ventilation system.
  - Encouraging the use of openable windows and opening doors to encourage airflow and a cross draft.
  - Installation of HEPA air filtration units which are maintained and adjusted by M&O.

**Cleaning and disinfecting**

We implement the following cleaning and disinfection measures for frequently touched surfaces:

- Regular cleaning and disinfecting of Point Arena Schools district facilities by custodial staff using the appropriate cleaning supplies and techniques.

- Ensure adequate supplies and time for it to be done properly.

- Supplies available for employees to keep at their desks to clean frequently touched surfaces (i.e. phones, keyboards, etc).

Should we have a COVID-19 case in our workplace, we will implement the following procedures:

- Should an employee or student be on campus while infected with COVID-19, the entire school will be closed for 72 hours or for the remainder of the week, whichever is longer, to clean and sanitize the facility.

- Public Health will be notified within 24 hours and contact tracing will begin through guidance from Public Health.

**Shared tools, equipment and personal protective equipment (PPE)**

PPE must not be shared, e.g., gloves, goggles, and face shields.

Items that employees come in regular physical contact with, such as phones, headsets, desks, keyboards, writing materials, instruments and tools must also not be shared, to the extent feasible. Where there must be sharing, the items will be disinfected between
uses by the employee with the cleaning and sanitizing materials provided to them. Regular cleaning will occur by custodial staff.

Sharing of vehicles will be minimized to the extent feasible, and high-touch points (for example, steering wheel, door handles, seatbelt buckles, armrests, shifter, etc.) will be disinfected between users. The vehicles will be sanitized prior to the next use.

**Hand sanitizing**

In order to implement effective hand sanitizing procedures, we:

- Encourage and allow time for employee handwashing.
- Providing employees with an effective hand sanitizer with ethyl alcohol (greater than 60% concentration) in all classrooms and common areas.
- Encourage employees to wash their hands for at least 20 seconds each time.
- Installation of touchless hand sanitizer dispensers in all main buildings and classrooms.

**Personal protective equipment (PPE) used to control employees’ exposure to COVID-19**

We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed.

When it comes to respiratory protection, we evaluate the need in accordance with CCR Title 8 section 5144 when the physical distancing requirements are not feasible or maintained.

We provide and ensure use of eye protection and respiratory protection in accordance with section 5144 when employees are exposed to procedures that may aerosolize potentially infectious material such as saliva or respiratory tract fluids.

- All classrooms with severely handicapped students have been supplied with enhanced PPE to ensure safety during toileting and cleaning of disabled students. Enhanced PPE includes a hospital grade gown, face shield, non-latex gloves, and surgical grade face masks.

**Investigating and Responding to COVID-19 Cases**

This will be accomplished by using the Appendix C: Investigating COVID-19 Cases form by site administration.

Employees who had potential COVID-19 exposure in our workplace will be:

- Offered COVID-19 testing at no cost during their working hours.
- ATTACH CHART (person A, B, C) as appendix. If employee comes into contact with COVID positive individual we will follow the attached Appendix. [Section C9 of
System for Communicating

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- Employees who are experiencing COVID symptoms should not report to work. Employees should inform their direct supervisor and Dunnell Daleuski in Human Resources at (707)882-2803 or ddaleuski@pauhs.org.
- Employees can report symptoms and hazards without fear of reprisal at: https://forms.gle/biV9gzYt14Y6F5KR9 Point Arena Schools Anonymous COVID-19 Hazard Reporting Form.
- Employees with medical or other conditions that put them at increased risk of severe COVID-19 illness should contact Human Resources to get information on potential reasonable accommodations.
- COVID-19 testing is available through the Point Arena Schools District for both teachers and students through Binax.
- COVID-19 testing is also available locally through RCMS (contact directly for testing dates and sights at (707)884-4005. Testing is also available in Fort Bragg and a mobile testing unit is available as scheduled.
- In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test.

Training and Instruction

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws.
- The fact that:
  - COVID-19 is an infectious disease that can be spread through the air.
  - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
  - An infectious person may have no symptoms.
- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially...
indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.

- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.
- COVID-19 Keenan training roster is on file with Human Resources. All employees were assigned and completed the mandatory training.

**Exclusion of COVID-19 Cases**

Where we have a COVID-19 case in our workplace, we will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work requirements are met.
- Excluding employees with COVID-19 exposure from the workplace for 10 days after the last known COVID-19 exposure to a COVID-19 case.
- Continuing and maintaining an employee’s earnings, seniority, and all other employee rights and benefits whenever we’ve demonstrated that the COVID-19 exposure is work related. This will be accomplished by utilizing any combination of the employee’s accrued sick leave and any available sources of COVID-related benefits, where applicable.
- Providing employees at the time of exclusion with information on available benefits.

**Reporting, Recordkeeping, and Access**

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or in connection with any employment.
- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in accordance with CCR Title 8 section 3203(b).
- Make our written COVID-19 Prevention Program available at the workplace to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.
- Use the Appendix C: Investigating COVID-19 Cases form to keep a record of and track all COVID-19 cases. The information will be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

**Return-to-Work Criteria**

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
  - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
  - COVID-19 symptoms have improved.
  - At least 10 days have passed since COVID-19 symptoms first appeared.
- COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
- A negative COVID-19 test will not be required for an employee to return to work.
- If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 10 days from the time the order to quarantine was effective.

---

Dunnell Daleuski/Human Resource Analyst  
Date 3/9/2021
Appendix A: Identification of COVID-19 Hazards

All persons, regardless of symptoms or negative COVID-19 test results, will be considered potentially infectious. Particular attention will be paid to areas where people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not. For example: meetings, entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas. Evaluation of potential workplace exposure will be to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. We will consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

Appendix C: Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by us will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law.

All employees' medical records will also be kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

Additional Consideration #1

Multiple COVID-19 Infections and COVID-19 Outbreaks

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 testing

- We will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees’ working hours.
- COVID-19 testing consists of the following:
  - All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.
  - After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
  - We will provide additional testing when deemed necessary by Cal/OSHA.

Exclusion of COVID-19 cases

We will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our CPP Exclusion of COVID-19 Cases and Return to Work Criteria requirements, and local health officer orders if applicable.

Investigation of workplace COVID-19 illness

We will immediately investigate and determine possible workplace-related factors that contributed to the COVID-19 outbreak in accordance with our CPP Investigating and Responding to COVID-19 Cases.

COVID-19 investigation, review and hazard correction
In addition to our CPP Identification and Evaluation of COVID-19 Hazards and Correction of COVID-19 Hazards, we will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19.

The investigation and review will be documented and include:

- Investigation of new or unabated COVID-19 hazards including:
  - Our leave policies and practices and whether employees are discouraged from remaining home when sick.
  - Our COVID-19 testing policies.
  - Insufficient outdoor air.
  - Insufficient air filtration.
  - Lack of physical distancing.

- Updating the review:
  - Every thirty days that the outbreak continues.
  - In response to new information or to new or previously unrecognized COVID-19 hazards.
  - When otherwise necessary.

- Implementing changes to reduce the transmission of COVID-19 based on the investigation and review. We will consider:
  - Moving indoor tasks outdoors or having them performed remotely.
  - Increasing outdoor air supply when work is done indoors.
  - Improving air filtration.
  - Increasing physical distancing as much as possible.
  - Respiratory protection.

Please refer to the FBUSD COVID-19 Protocols attached to this document.

Notifications to the local health department

- Immediately, but no longer than 24 hours after learning of any COVID-19 cases in our workplace, we will contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.

- We will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. We will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.

Additional Consideration #2

Major COVID-19 Outbreaks

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.
COVID-19 testing
We will provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at our exposed workplace during the relevant 30-day period(s) and who remain at the workplace. COVID-19 testing will be provided at no cost to employees during employees’ working hours.

Exclusion of COVID-19 cases
We will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our CPP Exclusion of COVID-19 Cases and Return to Work Criteria, and any relevant local health department orders.

Investigation of workplace COVID-19 illnesses
We will comply with the requirements of our CPP Investigating and Responding to COVID-19 Cases.

COVID-19 hazard correction
In addition to the requirements of our CPP Correction of COVID-19 Hazards, we will take the following actions:
- In buildings or structures with mechanical ventilation, we will filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, we will use filters with the highest compatible filtering efficiency. We will also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and implement their use to the degree feasible.
- We will determine the need for a respiratory protection program or changes to an existing respiratory protection program under CCR Title 8 section 5144 to address COVID-19 hazards.
- We will evaluate whether to halt some or all operations at our workplace until COVID-19 hazards have been corrected
- Implement any other control measures deemed necessary by Cal/OSHA.

Notifications to the local health department
We will comply with the requirements of our Multiple COVID-19 Infections and COVID-19 Outbreaks-Notifications to the Local Health Department.
